DETAILED ACTION

Specification

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Jacob Downy, on 30 January 2006.

The application has been amended as follows:

In the claims: claims **1-3** have been canceled. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 2822

In the specification: on page 8, in lines 6, 7, and 9, "**2b**" has been deleted and --**20b**-- has been inserted therein. On page 8, lines 8, 10, and 11, "**2a**" has been deleted and --**20a**-- has been inserted therein.

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures **7(a)&(b)** and **8(a)&(b)** should be designated by a legend such as --**Prior Art**-- because only that which is old is illustrated (specifications page 1-3). See MPEP § 608.02(g). The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. In order to avoid abandonment of the application, applicant must make these above drawing changes. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Applicant has requested that the legend --**Related Art**-- be used instead of --**Prior Art**--. The examiner agrees that the legend --**Related Art**-- can be used.

Allowable Subject Matter

Claims 4-12 are allowable in reference to the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or disclose the invention as a whole nor does it make the invention obvious to a person skilled in the art.

Although it is known in the art to form metal layers as contacts, see, e.g. Fukutomi et al. US 5,976,912, who discloses forming a nickel layer on a copper foil and

Art Unit: 2822

Kang et al. US 2004/0253764 A1 who discloses forming a silver layer on top of a copper lead frame.

However, none of the references of record teach or suggest forming both a plated nickel layer and a plated noble metal layer in layers on a metal foil and placing the metal foil with the plated nickel and the plated noble metal layer on the adhesive layer of the adhesive sheet, as presently presented in claims

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seth Barnes whose telephone number is (571) 272-6008. The examiner can normally be reached on Monday thru Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zandra Smith can be reached on (571) 272-2429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
